EDUCATION

Bachelor of Engineering in Information Science - CGPA: 8.27

SKSVMACET College, Lakshmeshwar, Karnataka

2023 - 2026

Diploma in Computer Science - Percentage: 70.08

SCK GPT, Bankapur, Karnataka

2019 - 2023

Secondary School Education - Percentage: 70.72

The Lions Navabharath Vidya Samste, Bankapur, Karnataka

2018 - 2019

TECHNICAL STRENGTHS

Programming Languages: C, Java(Basics) , Python , Typescript(basic), PHP.

Frontend Technologies: HTML, CSS, JavaScript, React.js.

Backend Technologies: Spring Boot, Express.js.

Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn.

Databases: MySQL, MongoDB.

Tools & Platforms: Git, VS Code, Power BI, Microsoft Excel.

Core Competencies: Machine Learning, Data Analysis, Web Development, Data Visualization, UI/UX Design, Data Preprocessing.

INTERNSHIP

Programming and Development Intern

Jan 2026 - May 2026

Contriver, Bengaluru [[Certificate](#)]

Tech Stack: Python, Machine Learning, Deep learning models, React.js, MySQL, Git.

- Worked on real-time Machine Learning, Data Analysis, and Full-Stack Web Development projects, applying modern technologies to develop data-driven and scalable software solutions.

TECHNICAL EXPERTISE

- Proficient in developing full-stack web applications using React.js, JavaScript, PHP, MySQL, and modern software development practices.
- Experienced in Machine Learning, Data Analysis, and Computer Vision using Python, Pandas, NumPy, Scikit-learn, and OpenCV to build intelligent solutions.
- Skilled in data preprocessing, visualization, version control, and problem-solving using Git, Power BI, and industry-standard development tools.

PROJECTS

- **Edge AI for Real-Time Sign Language Translation- [Link](#)**

Tools & Technologies: *Python, TensorFlow Lite, OpenCV, Raspberry Pi 4*

- Designed and implemented an edge AI-based real-time sign language translation system using Raspberry Pi 4, TensorFlow Lite, and OpenCV. Developed a CNN-based gesture recognition model to process live video streams and perform low-latency sign language translation, enabling efficient and accessible communication in resource-constrained edge environments.

- **Customer Journey Mapping Simulator- [Link](#)**

Tools & Technologies:*Python, Machine learning, Pandas, NumPy, Scikit-learn, Matplotlib*

- Developed a machine learning-based customer journey mapping system to analyze large-scale e-commerce user behavior data and identify customer interaction patterns. Implemented data preprocessing, feature engineering, and predictive models to forecast user actions, enabling data-driven insights for improving customer engagement and decision-making.

CERTIFICATES

- AWS Cloud Practitioner Essentials — Issued by AWS Skill Builder. [\[Certificate\]](#)
- Cybersecurity Fundamentals — Issued by IBM. [\[Credential\]](#)
- MERN: Advanced MERN Development — Issued by Infosys Springboard. [\[Certificate\]](#)
- User Experience and UI Design (UI/UX) — Issued by Accenture FutureLearn. [\[Credential\]](#)
- JAVA Fullstack Developer — Issued by LCC group of institution, Hubli. [\[Certificate\]](#)

INTERPERSONAL SKILLS

- Strong problem-solving and analytical thinking skills with the ability to identify challenges and develop effective technical solutions.
- Effective communication and teamwork abilities demonstrated through collaborative project development, internship experience, and technical presentations.

LANGUAGES

- **English** (Professional), **Hindi** (Professional), **Kannada** (Native)

EXTRA-CURRICULAR ACTIVITIES

- Participated in the Bharatiya Antariksh Hackathon 2025 [\[Certificate\]](#)
- Participated in CODEFIESTA and the TCE-Hackfinity National Level 24-Hour Hackathon. [\[Certificate\]](#)
- Participated in the TCS Tech Bytes Quiz Competition. [\[Certificate\]](#)
- Presented research paper at the Global Fusion Paper Presentation. [\[Certificate\]](#)
- Conducted and participated in a Artificial Intelligence for Next Generation Career workshop organized by Avinya techknows IT Solutions. [\[Certificate\]](#)
